

ADJUSTABLE HEADBAND

Headband is adjustable for better comfort and reduces force to eliminate discomfort.

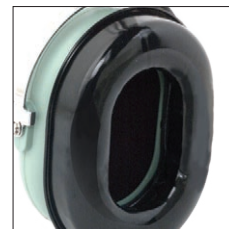

VOLUME CONTROL

Adjust headset volume as required. NRR 23dB.

M-7A ELECTRET MIC

Advanced electret microphone provides clarity of speech signals.

GEL EAR SEALS

30% more internal room for the ear and 60% more surface contact to spread pressure. 26% lighter than traditional Gel Seals.

UNIVERSAL FLEX BOOM

Exact microphone adjustment, with the option of left or right hand side placement.

Headset Services Limited is the European warranty repair centre for David Clark

H10-13.4H HEADSET FOR HELICOPTERS

David Clark H10-13.4H is the best selling standard noise-attenuating headset for helicopter pilots. No other headset has been able to match it for comfort, performance and reliability. Its lightweight design and outstanding comfort features reduce fatigue during flight. Low-profile volume control knob with detent settings guards against accidental volume shifts. Durable construction includes a molded cord assembly made to exceptional pull and flex standards. The H10-13.4H is the headset that sets the quality and performance standards for an entire industry.

DETAILS

HSL fully support the David Clark headset as a service centre for warranty and out of warranty repairs for David Clark Inc. We have an ISO9001:2000 and EASA 145 approved workshop where repairs, servicing and modifications are carried out on site. We have many years of valuable experience and the equipment that is repaired in our workshop, leaves in the original manufacturer's specifications.

Other products that are available with this headset are hygiene kit replacements, wind socks, cotton ear-covers and medi wipes.

DAVID CLARK ACCESSORIES

Comfort Cover Ear Seals

A soft, double-knit, 100% cotton, washable ear seal cover. Designed to absorb moisture in hot, humid weather. Not for use on the H-20 Series. Not recommended for use on ENC Headsets. Code: 22658G-01

Cushioned Headpad

Super-Soft, Double Foam Head Pad is wider and more tapered with 60% more surface area in contact with your head to dissipate headset weight. Will enhance comfort on all David Clark H10-series headsets. Code: 40688G-36

Undercut Gel Earseals

Gel ear seals with patented undercut design are 26% lighter and allow 30% more interior room for your ears for quieter, more comfortable flights. Will enhance comfort on all David Clark H10-series headsets. Code: 40863G-02

Microphone Socks

David Clark Company mic socks improve communications by reducing wind and ambient cockpit noise while transmitting. Check the Model of your microphone for correct size. Code: 40062G-01
