

BOLLE SAFETY GLASSES: SILIUM RANGE

Bolle Safety, the creators of safety eyewear have designed the Silium eye shield in a distinctively modern, technologically advanced style. The pure curves of the metal frame offers a design that is sleek and attractive while providing the wearer with optimal protection and panoramic vision. Fitted with an optical class 1 anti scratch/anti fog polycarbonate lens, the Silium also has integrated side shields, flexible temples, soft adjustable nose pads and Bolle's "Tip Grip" system for improved fit. Available with clear or smoke lens.

Product Codes

Clear lens: *SILPSI*
Smoked lens: *SILPSF*

BOLLE SAFETY GLASSES: VIPER RANGE

Bolle introduced the Viper range, which has been designed to meet the strict demands of the customers. They cover the complete contours of the face and are made with one piece plastic, reducing any confusion with the eye being drawn towards the bridge of the nose. The frame has been manufactured with adjustable arms, making sure a secure fit is always achieved. Bolle Viper eyewear come in three different colours, all with lenses which protect against ultraviolet light and are anti-scratch.

Product Codes

Clear lens: *VIPCI*
Yellow lens: *VIPSJ*
Smoked lens: *VIPCF*

BOLLE SAFETY GLASSES: AXIS RANGE

Inspired by sports eyewear. The latest creation from the Bolle Safety design team is the AXIS eye shield, an outgrowth of the world-renowned sports range. Real barrier against attack, the AXIS eye shield is so light it seems they are not even there but still gives the wearer a real sense of safety and well-being. Panoramic vision and bi-material co-injected temples for optimum comfort.

Product Codes

Clear lens: *AXPSI*
Contrast lens: *AXCONT*
Smoked lens: *AXPSF*

DETAILS

Available types - Vermilion is for clear, bright light, where you need to increase contrast Yellow gives better contrast in hazy to cloudy weather with normal daylight. Grey shields you from bright light while letting you see natural colours.

PELTOR MAXIM SAFETY GLASSES

FRAME

- Plastic frame with DuoForm mould processing
- Dual injected cushion browguard
- Soft universal-fit nose bridge pivots
- Ventilation channel on the top
- Heat resistance - up to 130°C
- Weight 29g

LENS

- I/O Polycarbonate patented aspherical lens
- Optical quality class 1 (no distortion)
- Resistance to impact (45 m/s)
- 100% UV filtration (in conformity with EN 172)
- Visible light transmittance = 55%
- DX coating: anti-fog, anti-scratch and anti-static
